

REPORT OF THE NATIONAL PRESIDENT DR. ANTHONY A. OMOLOLA DMP AT THE NEC MEETING HOLDING AT HOTEL BENIZIA, ASABA, DELTA STATE ON SATURDAY 27<sup>TH</sup> JULY 2013.

Dear respected colleagues, it is my pleasure to welcome you to this NEC meeting of 27<sup>th</sup> July 2013.

We thank GOD for journey mercies.

Between our AGM and now some major activities have taken places.

1. AGM

Our AGM in Tinapa was one of the most attended AGM in the history of our Association but at this junction let me apologize on behalf of the Association to our spouses for the improper arrangement for food when they were on outside

Modalities are now in place to ensure such occurrence does not happen in the future.

The National Officers are putting together structures that will enhance better performances, the AGM will be fine tune on regular basis to meet international best standards as we grow.

2. FMOH/PRIVATE HEALTH SECTOR

The Committee set up by the Federal Ministry of Health in August 2012: "unlocking the potential in private health sector" is putting processes in place that will put private health sector in a position to deliver high quality standards.

A publication will be out soonest on modalities to engage interested private sector in the world standard hospitals and diagnosis centres initiated by the ministry.

Private health sector that is undergoing Mega Hospital Projects among our members should please key into this, also our members that are ready to come together in group in a bid to set up mega centres should also start in earnest

3. WONCA

The triennial WONCA Conference took place in Prague Czech Republic, the Africa Region Council was help on the 21<sup>st</sup> of June 2013at Zibroh Castle, Corinthia Hotel Czech Republic.

The issue of making Africa region strong and viable was discussed.

Each member organization will pay a due of \$300 per annum and direct members \$200 per annum.

Committee members are to be drawn from member organizations in line with Africa by-law, our member that are interested should please
